

Transcription Factor Enrichment Analysis
vWAT Areg (exercise) and CP (rescue) DEGs

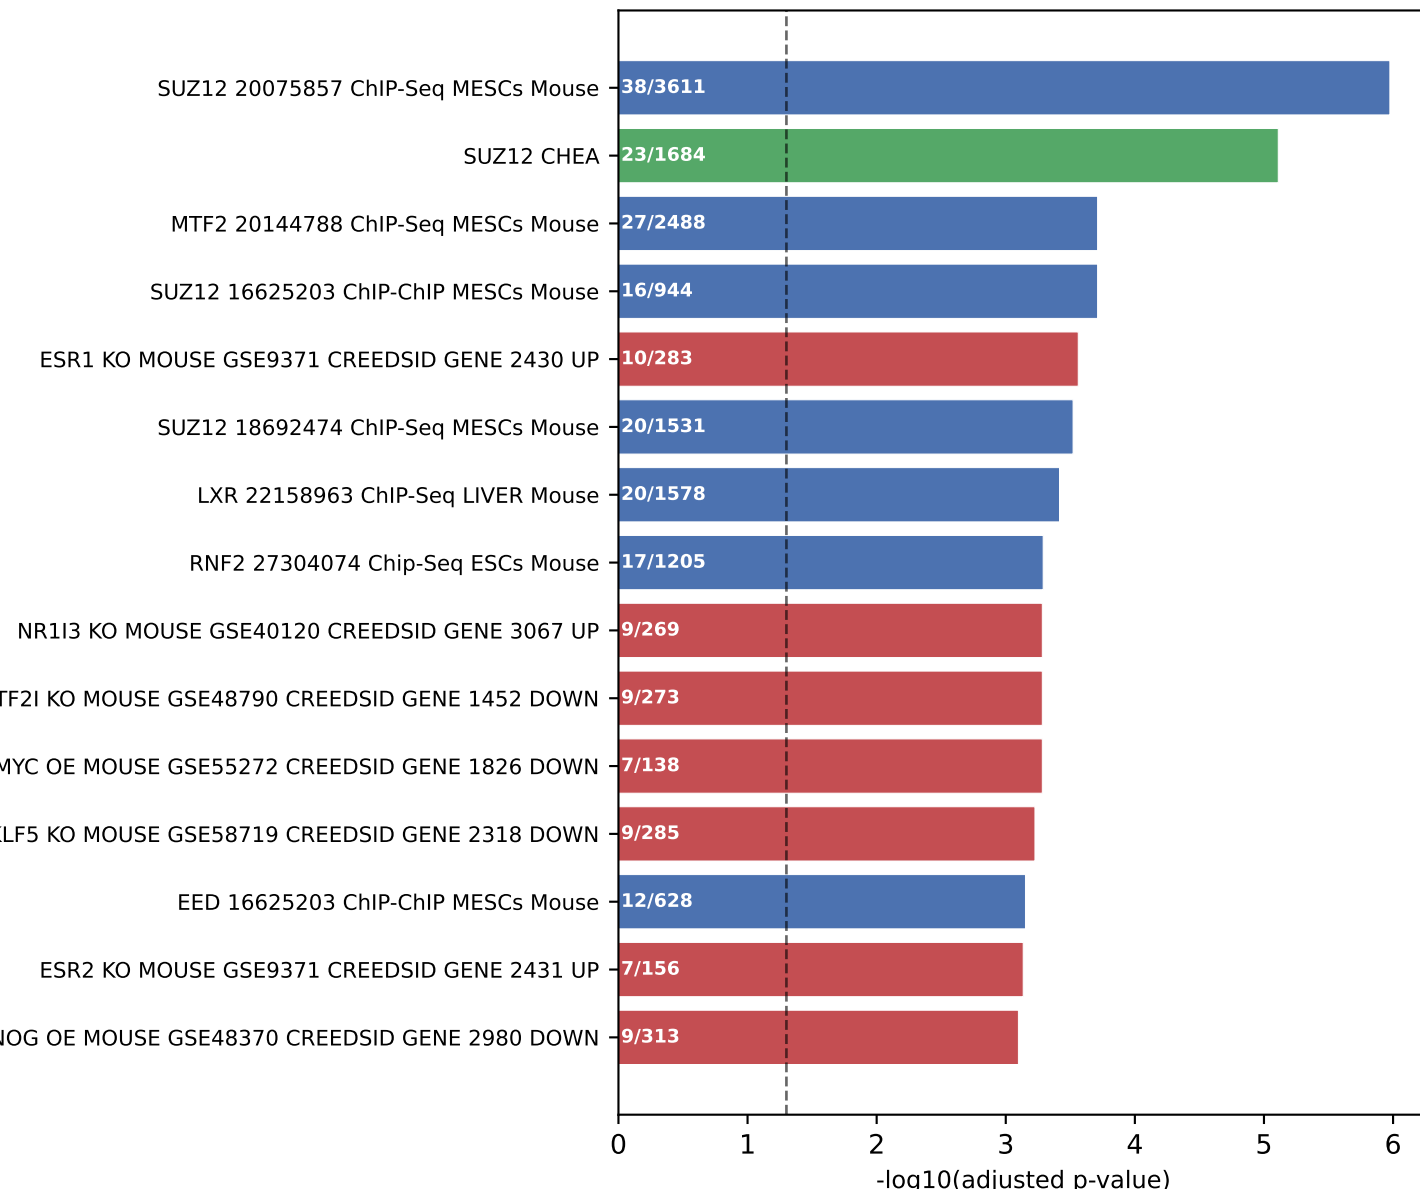

TFs enriched in Areg UPREGULATED genes
(exercise TC vs SC) — drives Fndc5/circadian/Igf1bp3

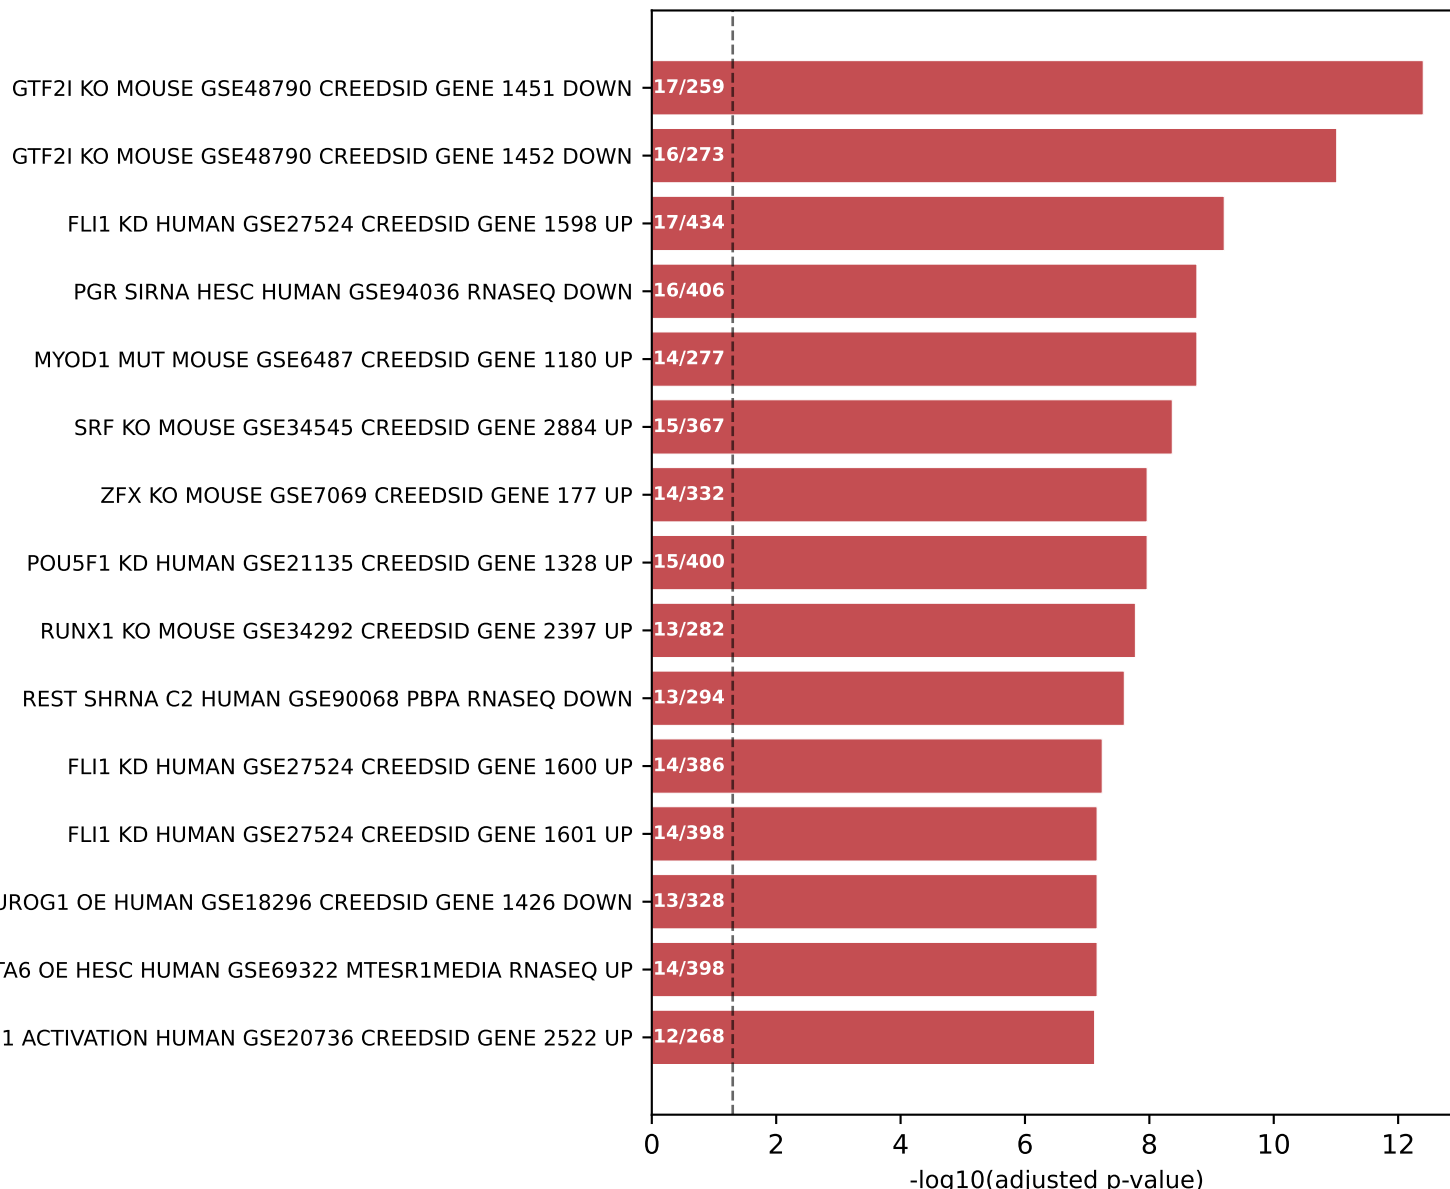

TFs enriched in Areg DOWNREGULATED genes
(exercise TC vs SC) — drives ECM suppression

TFs enriched in CP RESTORED genes
(rescue TH vs SH) — reactivated by exercise in obese

TFs enriched in CP SUPPRESSED genes
(rescue TH vs SH) — suppresses I133/Tnc/Ccn2 in obese

ChEA 2022 ENCODE and ChEA Consensus TFs from ChIP-X TRRUST Transcription Factors 2019
